Brand New Book ***** Print on Demand *****.A Fantasy Novel (Greek Version) Six more minutes, and Automatic Birth would be a fact: The full development of an embryo inside an electrodynamic lung and its precipitate growth to the age of thirty, within a time span of nine months. The Superhuman, as he was temporarily called, was expected to be a perfect psychophysical entity. In comparison with a normal person, that man could be considered as a god - thanks to the proper combination of chromosomes and the control of nucleic acids during the formation of the unicellular fetus. This was one side of the plan, which was called New Polity by those who knew, and promised a bright future for Mankind. The basic idea was the biological improvement of the human species, by DNA manipulation. Soon the earth would become a paradise of Superhumans, who would have very little in common with ordinary mortals. Of course, for the time being the plan New Polity could be revealed to a limited number of persons only, since the first measure it demanded was the efficacious decrease of...
